ANUEXCHANGE COMMUNITY

The ANU Exchange, located between ANU and the Civic Centre overlooking Lake Burley Griffin and Black Mountain, has a vision to become an exciting mix of activities in one of Australia's most significant and prestigious locations.

Vibrant cultural and community lifestyle

Dynamic, inspirational and inviting – the ANU Exchange offers a true sense of community and a vibrant lifestyle. It is a new destination for a city at one with its unique mix of cultures and its diverse ways of life.

Already a seat of artistic endeavour, the ANU Exchange plans to expand and build upon the University's cultural reputation. It will be a major creative centre for culture and the arts by leveraging the existing community facilities and creating new opportunities.

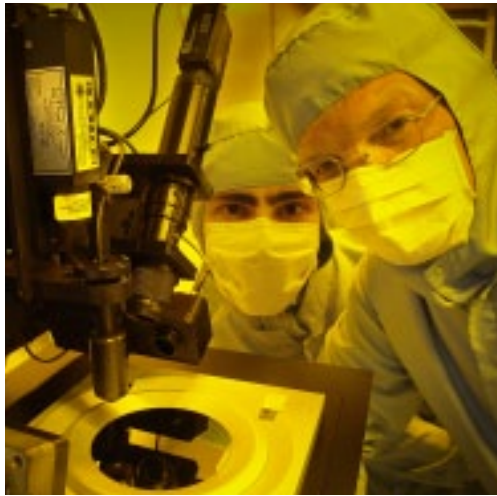

The broader community includes such esteemed venues as the ANU School of Art and School of Music, Llewellyn Hall, the National Film & Sound Archive, Drill Hall Gallery and the ACT Government Street Theatre. Arts Lane and Latin American Plaza join new community, arts and entertainment facilities to support a growing patronage.

The social fabric of the ANU Exchange continues to change, with growing numbers of professionals, researchers and students interacting in the community. The ANU Exchange will ultimately be home to more

than 4,000 employees and nearly 2,000 students. Researchers and professionals can work side by side in a precinct purpose-built to spur new ideas, new potential and new economic competitiveness.

The ANU Exchange not only provides students with enhanced learning opportunities, but also with a thriving and sophisticated living environment. Ultimately nearly 2,000 students will reside in the ANU Exchange. ANU Exchange accommodation offers a mix of high amenity independent living options that incorporate innovative design, exceptional functionality and high tech and environmentally sensitive features, all on the doorstep of the University and Canberra city centre.

The interactions and engagement of a growing population of professionals, researchers and students is fostered by the ANU Exchange's retail opportunities. Significant provisions have been made for new food outlets and specialty retail, as well as new services at street level to create a vibrant scene.

...A vibrant mix of university, arts, scientific, educational, residential and community facilities unique in Australia, that will significantly enhance Canberra's attractiveness as a city and as a seat of learning...

Partnership opportunities

Research partnerships with the ANU Exchange can be realised in a number of ways. ANU has continually expanded the impact of its research and training expertise through collaborations and partnerships with public and private sector organisations. These partnerships are based on a mutual understanding of specific interests and business needs and have the potential to deliver benefits across a range of areas, for example:

- collaborating on new leading edge research
- application of ANU facilities and infrastructure for mutual benefit
- participation in College internship programs to access students and attract top graduates
- partnership programs focused on delivering strategic outcomes with world-class expertise
- customised professional development programs that can provide staff with further tertiary qualifications targeted to business needs
- short or customised training courses and seminars to improve staff skills and understanding
- access to consultancies with internationally recognised ANU research and expertise
- branding and sponsorship of facilities and events connected with the ANU Exchange.

The ANU Exchange is a place that facilitates partnerships between businesses and ANU to foster innovation and collaboration. The location is ideal for organisations wishing to develop the potential of their enterprise adjacent to ANU.

ANUEXCHANGE COMMUNITY

As a place to live, work and play, the ANU Exchange is Canberra's exciting new destination. Sidewalk cafes, restaurants and parks will provide a vibrant social environment and a stimulus for exchange.

ANU Exchange

The ANU Exchange is an opportunity for your business to develop a rewarding relationship with The Australian National University (ANU), one of the world's great research universities located in Australia's capital, Canberra.

The purpose of the ANU Exchange is to create a major new precinct connecting ANU and Canberra's city centre. The objectives of the ANU Exchange include:

- generate new research partnerships between the University and business
- create new University enterprise from research and innovation
- enhance learning opportunities
- create an attractive and safe place for students
- provide a destination for a vital arts community.

Created under a Deed of Agreement with the ACT Government, the ANU Exchange vision is to become an exciting mix of activities in one of Australia's most significant and prestigious locations:

...A vibrant mix of university, arts, scientific, educational, residential and community facilities unique in Australia, that will significantly enhance Canberra's attractiveness as a city and as a seat of learning and will operate as a valuable generator of new economic, cultural and community development for the Australian Capital Territory.
